

WILEY-VCH, a subsidiary of the distinguished publishers John Wiley & Sons, is an international science publisher based in Germany with over 80 years experience of producing high-quality professional magazines, scientific journals, books and electronic media in Chemistry, Physics, Materials Science and Life Sciences.

Wiley-VCH's Materials Science journals are looking for an

# Assistant / Associate Editor (f/m)

(Ref.-No. 16/2015)

As an Assistant/Associate Editor for our journals, including leading titles such as *Advanced Materials* and *Macromolecular Rapid Communications*, you will gain on-the-job experience in many different aspects of publishing, such as the acquisition and development of journal and magazine content (both print and online), editing, proofreading, coordination of freelance work, the commercial development of journal services, and contact with authors and referees from all over the world. You will also contribute to the content and development of our news sites *Materials Views* and *Pro-Physik*.

Applicants for the position should have a broad interest in chemistry/materials science/polymer science/physics/life sciences, be self-motivated, have excellent organizational, time management and communication skills (written and verbal), be diplomatic and be flexible. Previous experience with journal and manuscript handling systems would be an advantage. Familiarity with text and graphics computer applications as well as social media and web editing tools is required,

as is an excellent command of the English language. A PhD in materials science, chemistry, physics, or a related field is strongly preferred. Fluency in German and previous publishing/writing experience would be advantageous.

The Editorial Office is based at WILEY-VCH in Weinheim in the Rhein-Neckar area in southwest Germany. We offer competitive financial and career rewards, training, and career development.

Applicants should send their full CV with a covering letter describing their suitability for the post by e-mail to [application@wiley.com](mailto:application@wiley.com).
