

Research Awards for Undergraduate Students 2020

AIM

The Condensed Matter Physics Division-GEFES of RSEF provides up to 8 awards amounting to 750 € (including taxes) for research works on Condensed Matter performed by undergraduate students under the supervision of GEFES members. The work should be done by the students between October 2020 and March 2021.

ELIGIBLE STUDENTS

- Undergraduate students who have completed more than 70% of their degree credits.
- Students must choose a tutor among researchers who are members of GEFES.
- The performed work should be different from any previous work by the student (for example, work done for any particular subject of their undergraduate studies), but it can be a continuation of previous work.
- These awards are not compatible with simultaneous ones of similar characteristics.

GEFES TUTORS

- Tutors must hold a PhD, be members of GEFES and have a contract with a Research Institution or University in Spain.
- Each GEFES researcher can support the application of one student and only if they did not supervise a student on the previous call.

APPLICATIONS

The deadline for applications is 30 September 2020. The candidates should send their application to gefes.rsef@gmail.com providing:

- Name and surname(s) of the candidate.
- Name, surname(s) and affiliation of the supervisor.
- Title of the research topic of their choice.
- Marks average supported by a copy of their academic certificate (expediente académico). The document should include information about ALL the subjects and credits passed up to the application date. The file must be named SURNAMES-NAME.pdf.

The tutor should be in copy of the email.

COMMITTEE

The evaluation committee will be composed by members of the GEFES board.

SELECTION CRITERIA AND PROCESS

The applications will be ranked following the applicants' marks average in the academic certificate (expediente académico). The selection of the awardees will be notified by e-mail at the beginning of October. The payment will take place in October by bank transfer.

AWARDEE STUDENTS

A report of the work performed with a maximum length of 5 pages plus a non-technical short summary in Spanish for the general public should be submitted electronically to gefes.rsef@gmail.com by 31 March 2021 (deadline). The report and summary will be publicized at gefes-rsef.org.
